

The 20th Tugboat Roundup Wrap-up

We had an amazing weekend!

In the event you missed it, make sure you go to the Facebook page for pictures and some quick stories. (www.facebook.com/tugboatroundup)

We had a strong showing of boats, vendors who showed a nice selection of wares, a really good mix of music groups through the weekend and fantastic fireworks!

Our Tug Talk program was really well attended with a mix of engaging speakers and we expect this program to just get stronger in the coming years.

From Fireboats to working tugs, antique tugs, a state tender and the really fun Shoofly Pie, there were things for everybody to see.

The mini-tugs had a blast - and of course, that means we're having fun just watching them! Boats went out on the push-off's in the Hudson, The Farmer's Market ran all weekend and kids activities at Lock 2 range from a fire safety obstacle course to pony rides to a bouncy slide and face-painting!

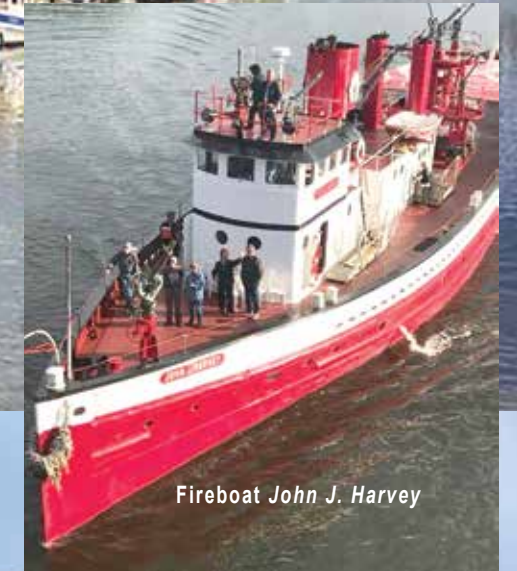

The new addition of The Tugboat Trolley was a success, too. The trolley provided shuttle service from remote parking locations and was busy all day, right through the fireworks, on Saturday.

Our feature boats included the John J Harvey and the W.O. Decker.

We're committed to making the Tugboat Roundup better every year and we're looking forward to seeing you.
