

November 2014 -Chittenago, NY " Dave was a great instructor, host and friend. I enjoyed the time with Dave and appreciate his willingness and service to offer a class."

Learn the proper way to do gelcoat repairs without knocking your head against the wall from disappointing results. Save yourself the frustration and take a Gelcoat & Fiberglass Repair Class. I also teach Polyflake Repair (sometimes called metal flake- FYI Polyflake is on boats, metal flake is on autos)

Classes can be designed for those who want to work on their own boats or can be geared for those who work in the trade and want to improve the quality of their repairs.

A majority of the training is "hands on" it is not a class room setting. The class covers- Proper compounding and buffing techniques, gelcoat color restoration, gelcoat color matching, grinding gelcoat and fiberglass damage to prep for a repair, basic fiberglass lay-up, mixing and applying fiber fillers, sanding and prepping for gelcoat, spraying gelcoat, finish sanding, compounding, buffing to complete repair. It also includes repair techniques for osmotic blisters, holes, airvoids, stress cracks, fractures and gashes. We offer Advanced Training Polyflake repair as well.

If you have a boat that needs minor gelcoat repair and can trailer it to the class it is the perfect opportunity to learn gelcoat repair and do your own small repair!

Students are given a binder to keep. A "Bible" one student calls it. It includes step by step gelcoat repair techniques and information covered in the class, equipment and repair materials list and sources to purchase.

Classes can be scheduled year round. We are busy with

our own customer repairs and will work with your schedule and ours!

Call me for more information or to schedule a class in the future! Due to Covid we stopped our training but will resume as soon as it is safe to do so – hopefully soon!
