

Alice and Vinny Furfaro

Doing what they did best, loving each other and the Hudson River. Sadly Alice is gone, but she will never be forgotten!

Enjoying the Hudson River is the Furfaro clan on a hot Sunday afternoon. Here having a sponge fight. Who says you need a lot of expensive equipment to enjoy the river.

The sensational Furfaro clan. It all began with Vincent Furfaro shown on left with beard almost 60 years ago. This is only a small portion of the parents and children that were enjoying the Hudson River on a hot Saturday afternoon. All related to Vincent and Mary Langer, Vincent's first wife.

Within the group are building contractors, lawyers, doctors, engineers, etc.

Vinnie and Alice have enjoyed the Hudson River almost every day of their lives, swimming, canoeing, building sculptures out of driftwood found on the beach and generally having a thoroughly enjoyable life on the edge of the Hudson River.
